

REMARKS

The claims 1-15 were rejected as unpatentable over Raghavan in view of Shpantzer. Applicant request reconsideration.

Applicant swears behind Shpantzer. The present application was file on 02/11/04. Shpantzer was filed 08/11/06. The present applicant has a constructive date of invention before Shpantzer's constructive date of invention. Shpantzer is not prior art to the present application and deemed not considered.

Raghavan teaches quadriphase signaling using split and null spectra for increased pseudo range accuracy. Whereas, the present invention teaches uniphase signaling, using split and null spectra for increased channel capacity. Raghavan does not teach or suggest the present invention. Applicant requests allowance of the claims.

Respectfully Submitted
